WORK EXPERIENCE

- **Front-end developer**

Versatile Credit PA 4/18 to present

Created functional wireframes with Adobe XD. Worked primarily in two different code bases one Vue and the other React Creating custom Vue and React components for internal framework. Automation and optimization, using Webpack and minified JS and CSS. As well as keeping everything in version control we use Bit Bucket but I am very familiar with Github.

- **Front-end developer**

Pavone Marketing, PA 6/17 to 4/18

Revamped UI and app interface for customer-facing site. Designed and developed front-end for 10+ websites, using JavaScript, Axios, Webpack, and Foundation. Created functional wireframes with Adobe XD. Created custom Vue components for internal framework. Automated image optimization, using Webpack and minified JS and CSS, which reduced page load times. As well as keeping everything in version control.

- **Senior Web Developer**

Contracted

Glatfelter Paper–York, PA 1/17 to 6/17

Developing an educationally portal for 2500 employees and 3 different languages that had to tie into Sharepoint along with a Yammer network I created. It ran on a IIS server and connected into there Activity Directory. They didn't have the ability to use a database so I built it on Jekyll and it was responsive. Other tech used HTML, CSS JS, Gulp, SASS,Handlebars, JQuery, PHP and Foundation There were a lot of educational videos so I used After Affects often along with a lot of the Adobe Suite. As well as keeping everything in version control*.*

- **Senior Designer / Web Developer**

LÉBO Skin Care-York,PA 6/16 to 1/17

Maintained brand identity across multiple brands. Generated concepts and followed through to production. Designed everything from billboards to e-blasts, web ads, magazine ads, print collateral, signage, apparel, brochures, web assets, POP displays, special projects and more. Upheld industry standard file management systems. Excellent written and verbal communication skills. Fluent in the adobe suite (Photoshop, Illustrator, Indesign) as well as HTML 5, CSS, JavaScript, Worpress, photography and retouching, hand drawing skills and more. As well as keeping everything in version control.

- **Lead Packaging Graphic Designer**

Menasha Packaging–York, PA 11/13 to 6/16

Retail package designer POP and B2B displays, Lamas, design and production, Client interaction on all projects to make sure all brand standards were followed, illustration, 3D mock-up creation and rendering, plus Front-end UI Web Development, Email DRIP marketing using mail chip and handled all social media outlets with a editorial schedule that coincided with all marketing publication layout. Tech used, HTML, CSS JS, Grunt, SASS, ,JQuery, PHP. Adobe Suite with After Affects and Video & Photography
